Industry Update

**Golf Simulator Market Anticipated to Hit USD 4.1 Billion by 2032
Overview of the Global Golf Simulator Market**

The global golf simulator market is poised for significant growth, reflecting a growing shift in how people experience the sport. Valued at US\$2.2 billion in 2025, the market is projected to reach US\$4.1 billion by 2032, expanding at a CAGR of 9.1% during the forecast period. This growth is driven by technological advancements that enable immersive, data-driven virtual golfing experiences-making it possible for enthusiasts to practice and play indoors, regardless of weather or location.

Five Iron Golf Expands to Europe with First UK Location at Broadgate Circle.

Five Iron Golf, the global leader in golf and entertainment, announced today it will open its first European location in London at British Land's Broadgate Campus, in the heart of the city. The 6,900-square-foot space at 1 Finsbury Avenue will anchor the ground floor, surrounded by global firms including UBS, Citadel, and top-tier law practices — an ideal setting for both business and leisure.

The London flagship marks the first of a multi-unit franchise agreement led by Eric Parker, an early Five Iron Golf investor and longtime member. The debut location in the heart of London will spearhead the brand's entry into the market and serve as the foundation for future growth in London and throughout the UK.

Bushnell Golf Introduces Launch Pro "Circle B" Edition.

Bushnell Golf announces the Launch Pro is back with new "Circle B" Editions, featuring a bold new look, updated subscription tiers and the

same Tour trusted technology that made the original one of the most popular launch monitor and simulator units on the market.

Unlike radar-based systems that sit behind the golfer and rely on algorithms to estimate impact, Launch Pro Circle B uses a proprietary three-camera system with high-speed, high-resolution cameras and optimized infrared technology to deliver precise, reliable data on every shot. Providing exact carry distance, clubhead speed, and launch and spin metrics, it helps golfers better understand their numbers for more effective practice and improved on-course performance.
