Industry Update

Golf Simulation Market Expected to Expand at 9.2% CAGR, Surpassing US\$ 3,425.65 Million by 2032

Golf Simulator Market Scope and Latest Industry Trends
A golf simulator is an advanced indoor system that replicates the experience of playing golf using high-speed cameras, radar sensors, infrared technology, and simulation software to analyze ball flight, swing mechanics, speed, spin, and trajectory. It enables players to practice, train, or play virtual rounds of real-world golf courses within controlled indoor environments.

2026 Launch Monitor Buyer Survey Results

Researching a **launch** monitor still kind of sucks. The specs look amazing, the marketing is glowing, and then you get it home and realize no one mentioned your exact setup or use case. I wanted real-world feedback from actual owners, not just brand decks and sponsored reviews, so I turned to the r/Golfsimulator community to crowdsource it.

First Responders Raise Funds in Virtual Golf Competition

SCRANTON, LACKAWANNA COUNTY — Some first responders are raising funds by swapping out their firefighting gear for some golf clubs. The Scranton Fire Department took on the Wilkes-Barre Fire Department in a friendly virtual golf competition.

They gathered for the inaugural Hook and Ladder Challenge for charity. Scranton's newest sports bar, called 7 Under Golf & Social at Wyoming and Lackawanna Avenues, hosted the event.
